INDEPENDENT AUDITOR'S REPORT

Members of the Board
Broussard Environmental Service
and Enhancement District
Broussard, Louisiana

I have audited the accompanying financial statements of the business-type activity of Broussard Environmental Service and Enhancement District, a component unit of the City of Broussard, Louisiana, as of and for the year ended June 30, 2005, which comprise the basic financial statements of the District as listed in the table of contents. These financial statements are the responsibility of the Broussard Environmental Service and Enhancement District's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activity of the Broussard Environmental Service and Enhancement District, a component unit of the City of Broussard, Louisiana, as of June 30, 2005, and the changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance, with *Government Auditing Standards*, I have also issued my report dated October 25, 2005, on my consideration of the Broussard Environmental Service and Enhancement District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of my audit.

The Broussard Environmental Service and Enhancement District has not presented management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

NOTES TO FINANCIAL STATEMENTS

June 30, 2005

1. Summary of Significant Accounting Policies

The financial and reporting policies of the Broussard Environmental Service and Enhancement District ("the District") conform to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the guidelines set forth in the Louisiana Municipal Audit and Accounting Guide and to the industry audit guide, Audits of States and Local Governmental Units. The District applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989 are applied unless they conflict with or contradict GASB pronouncements, in which case, GASB prevails.

The following is a summary of certain significant accounting policies:

Nature of Operations. The District will contract to provide sewerage treatment, processing and recycling services to the City of Broussard, Louisiana when the construction of its sewer treatment facilities are complete.

Reporting Entity. As the governing entity, the City of Broussard, Louisiana, for reporting purposes, is the financial reporting entity. The financial reporting entity consists of (a) the primary government (City), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the City of Broussard for financial reporting purposes. The basic criteria for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the City to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the City.
2. Organizations for which the City does not appoint a voting majority but are fiscally dependent on the City.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the City appoints the majority of the District's board members and has the ability to impose its will on the District, the District was determined to be a component of the City of Broussard, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the City, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

Fund Accounting. The accounts of the District are organized into one proprietary (enterprise) fund. The operations of the fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net assets, revenues and expenses.

Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Enterprise funds distinguish operating revenue and expenses from nonoperating items. Operating revenues are derived from charges for service. All other revenues are reported as nonoperating.

Measurement Focus/Basis of Accounting. Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

The District utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.

The accrual basis of accounting is utilized. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Capital Assets. Depreciation of all exhaustible capital assets used by the enterprise fund is charged as an expense against its operations, and accumulated depreciation is reported on its balance sheet. Depreciation shall be provided over estimated useful lives using the straight-line method. The estimated useful lives are as follows:

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Sewer treatment system	20-50 years
Equipment and vehicles	05-10 years

All fixed assets are stated at historical cost.

Cash. The District considers only cash on hand and in interest and noninterest-bearing checking accounts to be cash for purposes of the statement of cash flows.

Deposits and Investments. Investments are stated at cost. The District had no investments during the current year. As of June 30, 2005, all of the District's bank deposits were insured by the FDIC.

Under state law, the District may deposit funds in demand or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

The District may invest in bonds, debentures, notes and other evidences of indebtedness backed by the full faith and credit of the U. S. government or are issued or guaranteed by U. S. government instrumentalities which are federally sponsored. Certain collateral mortgage obligation derivatives, inverse floaters, and structured notes are prohibited.

Dollar Signs. All numeric data in the financial statements and accompanying notes are presented in U. S. dollars. Dollar signs have been omitted.

2. Capital Assets

Capital asset activity for the year ended June 30, 2005 follows:

	<u>Balance</u> <u>07/01/04</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance</u> <u>06/30/05</u>
Land	537,216	-	-	537,216
Sewer treatment system	-	-	-	-
Equipment and vehicles	-	45,472	-	45,472
Construction in progress	<u>321,700</u>	<u>550,541</u>	-	<u>872,241</u>
Totals	<u>858,916</u>	<u>596,013</u>	-	<u>1,454,929</u>
Less accumulated depreciation				
Sewer treatment system	-	-	-	-
Equipment and vehicles	-	<u>3,032</u>	-	<u>3,032</u>
Total accumulated depreciation	-	<u>3,032</u>	-	<u>3,032</u>
Capital assets, net	<u>858,916</u>	<u>592,981</u>	-	<u>1,451,897</u>

Current year depreciation of 3,032 was added to construction in progress.

NOTES TO FINANCIAL STATEMENTS(CONTINUED)

3. Retirement System

The District maintains no retirement system.

4. Due to Other Governments

This liability is the amount advanced to the District by the City of Broussard, Louisiana. No terms have been established for the obligation. Amounts advanced in prior years and in the current year totaled 849,826 and 601,131, respectively.

5. Board Member Compensation

The board is comprised of eight members. The members' compensation is fixed by the governing body of the City of Broussard. Board members received no compensation during 2005.

6. Risk Management

The district is exposed to risks of loss in the areas of general liability and property hazards. Those risks are handled by purchasing commercial insurance. There have been no significant reductions in insurance coverage during the current fiscal year. Settlements have not exceeded insurance coverage during the three year period ended June 30, 2005.

7. Commitments

The District plans to build an oxidation pond costing eight to ten million dollars during the next four years. Presently, the District has construction projects in progress and is committed to spend an additional 77,535 to complete them. It is anticipated that the existing and planned construction shall be funded by advances from the City of Broussard, Louisiana.

The District paid an annual right-of-way fee of 4,749 in 2005. The right-of-way is renewable annually at the District's option and escalates 4% per year.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Members of the Board of Directors
Broussard Environmental
Service and Enhancement District
Broussard, Louisiana

I have audited the financial statements of the business-type activity of Broussard Environmental Service and Enhancement District, a component unit of the City of Broussard, Louisiana, as of and for the year ended June 30, 2005, which comprise the District's basic financial statements and have issued my report thereon dated October 25, 2005. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Broussard Environmental Service and Enhancement District's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. However, I noted certain matters involving the internal control over financial reporting and its operation that I consider to be reportable conditions. Reportable conditions involve matters coming to my attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in my judgement, could adversely affect the Broussard Environmental Service and Enhancement District's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. The reportable condition noted is described in the accompanying schedule of audit findings as item 05-01.

Compliance

As part of obtaining reasonable assurance about whether Broussard Environmental Service and Enhancement District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, I believe reportable condition 05-1 is a material weakness.

Under Louisiana law, this report is a matter of public record.

This report is intended solely for the information and use of management, others within the organization, and the Board of Directors and is not intended to be and should not be used by anyone other than these specified parties.

**BROUSSARD ENVIRONMENTAL
SERVICE AND ENHANCEMENT DISTRICT**

**Schedule of Prior and Current Audit Findings and
Management's Corrective Action Plan
Year Ended June 30, 2005**

I. Prior Year Findings:

Compliance

There are no findings that are required to be reported under the above.

Internal Control Over Financial Reporting

Item 04-1-Inadequate Segregation of Accounting Functions

Finding:

Due to the small number of employees, the District did not have adequate segregation of functions within the accounting system.

Status:

Unresolved. See item 05-1.

II. Current Year Findings and Management's Corrective Action Plan:

Compliance

There are no findings that are required to be reported under the above.

Internal Control Over Financial Reporting

Item 05-1 - Inadequate Segregation of Accounting Functions

Finding:

Due to the small number of employees, (accounting is provided by the City of Broussard, Louisiana) the District did not have adequate segregation of functions within the accounting system.

Management's corrective action plan:

Management has determined that it is not cost effective to achieve complete segregation of duties within the accounting department. No plan is considered necessary.
